

About Us:

VP Machine Technologies, an ISO-certified Original Equipment Manufacturer (OEM) based in the industrial hub of Belagavi, North Karnataka. Established in 2021 as a proprietary venture, the company has rapidly scaled and became a trusted engineering partner for heavy industries and the agricultural sector.

Enterprise Journey & Capabilities

Recognizing a gap in the market for high-precision, reliable component manufacturing, we founded VP Machine Technologies with a vision to deliver world-class engineering solutions.

The company operates a state-of-the-art facility specializing in:

- **Precision Machined Components:** High-tolerance parts for diverse engineering applications.
- **Automotive Components:** Critical parts tailored for the automotive supply chain.
- **Heavy Fabricated Components:** Robust structural and industrial fabrication.
- **Special Service Tools (SST):** Customized, proprietary tool manufacturing catering specifically to major tractor and agricultural companies.

Enterprise Design & Development Facilities

- Uphold capabilities to Develop various types of Machines and Machining Components.
- Possess precise Machinery setup for various machining operations.
- Demonstrated with Measuring Instruments for Quality Control.
- Our Products comply with all the relevant national & international Quality Standards like IS/DIN/BS/ISO/ASTN
- We have various reference books on Material selection, Stress Factor, Heat Treatment Process etc. as per ISO Standards.
- Skilled labors that help us to improve and maintain quality and Productivity.

Our Valued Customers Are

- Kubota Agriculture Machinery India Pvt. Ltd.
- DME India Pvt. Ltd.
- Tool Holders Pvt. Ltd.

Executive Profile: Vinayak Patil

Founder & Managing Director | VP Machine Technologies

Mr. Vinayak Patil is a dynamic technocrat and the driving force behind **VP Machine Technologies**, an ISO-certified Original Equipment Manufacturer (OEM). Established in 2021 as a proprietary venture, the company has rapidly scaled under his leadership to become a trusted engineering partner for heavy industries and the agricultural sector.

Technical Expertise & Credentials

Mr. Patil brings a robust academic background and **15 years of deep-core industry experience** to his enterprise. His credentials include:

- **Bachelor of Technology (B. Tech)** in Mechanical Engineering.
- **Diploma** in Automobile Engineering.

Throughout his decade-and-a-half career, he has mastered critical verticals including end-to-end Product Development, Advanced Quality Systems, Reverse Engineering, Precision Design, and rigorous Industry Certification Audits.

Strategic Vision

As a medium-scale entrepreneur, Mr. Patil has seamlessly blended his technical expertise in design and quality assurance with sharp acumen in marketing and business administration. By focusing on stringent quality controls, lean production, and customer-centric engineering, he is currently positioning VP Machine Technologies to expand its footprint from a regional OEM to a tier-1 supplier on a national scale.
